Steve reference

I highly recommend Stephen George and Landscapes West as a landscape design, installation and maintenance company. Steve designed and they installed my beautiful landscaping several years ago and have maintained it very reliably ever since. Steve and his crew are very responsive and also pleasant to work with on any special circumstance that might arise like the irrigation leak and wind damaged small tree I experienced. I much appreciate the peace of mind I have with Steve and his crew. I never need to worry about the maintenance of my lovely landscaping.

Julie
