Subject: Recommendation

Steve and his crew (Eddie and Victor) did an exceptional job on the complete remodel of our front yard and side yards.

We met with Steve to discuss the scope of work and provide our thoughts and ideas. A few days later Steve designed a total plan of hardscape and landscape that captured everything that we asked for in a cohesive plan that clearly reflects a professional touch that we could not accomplish on our own.

Eddie and Victor are two very hard working men and quite knowledgeable when dealing with the quirks of an older home as well as creating a way to merge the new design with the remaining landscape.

If you want a gorgeous landscape then call Steve!
